AWAIR

TAKE AIR ACTION WITH DASHBOARD VISIBILITY AND SIMPLICITY.

From its stylish presence on a wall to its quick-read analytics, American Standard's in-room monitors are an easy solution to keep indoor air quality on top of everyone's mind

1. **Centralized Control**
   Manage your Awair devices, update settings, and oversee multiple properties from one intuitive platform.
2. **Actionable Insight**
   Visualize data, compare trends, and create custom alerts to notify you the moment conditions move outside of your target criteria.
3. **Streamlined Reporting**
   Download data queries to inform operational policy and fulfill Green Building Certification requirements
4. **Organize & Manage**
   Network together multiple Awair devices by Organization, Location, and Floor to simplify operations and lend context to air quality readings.
